Product Requirement Document

Stitch: a student community app for social, study and career, with creator earnings.

1 Overview

This document describes what Stitch does, feature by feature. It defines the expected behavior of each part of the product so everyone building, testing or reviewing Stitch works from the same understanding.

Social
Connect, post, chat

Study
Classes, courses, AI

Career
Jobs, CV match

Earn
Creators get paid

2 Product Goal

Build the one app a student opens every day to connect, learn and find opportunities, while giving creators a fair way to earn.

Daily habit
Be the first app a student opens each day

Creators earn
Real money from courses and classes

Opportunities
Help students land internships, jobs and scholarships

Safe and fast
Trusted, secure, works on ordinary phones and networks

3 Features

Feature	Description	Expected Behavior
Sign up and onboarding	Email code, Google or Apple, then guided setup	Account is kept only once onboarding is finished
Profiles	Name, username, photo, bio, pronouns, links	Visible to others; profile views are counted
Network	Send, accept and decline connection requests	Private accounts: connect before messaging
Feed and posts	Posts with media, likes, comments, reposts, saves, shares	Loads a page at a time; videos autoplay in view with sound
Glimpses	Short story-style updates	Menu: Share to network, Report, Repost to my glimpse
Chat and calls	DMs, voice notes, attachments, voice and video calls	General, Collaborations, Meetings and Requests tabs
Classes and meetings	Class code, invites, work, grading, scheduled meetings	Reminders, class chat, meeting chat and lecture chat
AI class (Stitch Bot)	Study assistant chat	Free for everyone with caps: 30 a day, 150 a week, 500 a month, enforced by the server
Stitch Pro	Optional plan for Practice tests and the Challenge Arena	Free, GHS 40 a month or GHS 399 a year; the server counts usage and shows the upgrade sheet at the limit
Courses, quizzes, challenges	Creator courses, practice quizzes, multiplayer challenges	Paid access unlocks only after a verified payment

Feature	Description	Expected Behavior
Career space	Opportunities, internships, scholarships, applications	Expired listings are removed automatically
Match with CV	Compare a CV with an opportunity	**Still to implement.** Built but hidden for now; it will be switched on once finished. CV stays private
Creator earnings	Sell courses and classes, withdraw to Mobile Money	20% fee, GHS 50 minimum, admin approves payouts
Poster verification	ID and selfie checks for anyone posting opportunities	Blocked or frozen posters cannot post
Reports and moderation	Report posts, glimpses, classes, courses, opportunities	Reaches admins with a snapshot; reporter picks a reason
Admin tools	Reports queue, payouts, posters, notices	Every action goes to an audit log
Settings and account	Theme, notifications, privacy, account deletion	Deletion removes the user's data everywhere

4 Target Users

Students
Connect, study, learn and look for opportunities

Creators
Lecturers, tutors and strong students who teach and earn

Opportunity posters
Companies and individuals who list internships, jobs, scholarships

Admins and moderators
Keep the platform safe and handle payouts

5 Business Rules

Rule	Detail
Private accounts	Connections must be accepted before people can message
Creator fee	20% of each sale
Withdrawals	Minimum GHS 50 to MTN, Telecel or AirtelTigo Mobile Money
Payouts	Admin approval, cooldown and hold period
Server decides	Prices, fees and permissions are enforced by the server, not the app screen
AI class	Free, with usage caps (30 a day, 150 a week, 500 a month)
Stitch Pro	Free plan: 3 mock tests and 3 AI gradings a week, 3 AI quizzes a month, 2 challenges a week. Pro (GHS 40 a month or GHS 399 a year): 30 mock tests, 30 AI gradings, 30 AI quizzes a month and 20 challenges a week, with daily limits too. Limits are enforced by the server
Match with CV	On the plan, not live yet. Hidden until it is implemented
Safety	Report and block available wherever users meet users
Sign up	Onboarding must be finished to keep the account

Rule	Detail
Minimum age	To be decided before launch

6 Success Metrics

- **New users and onboarding completion**
- **Daily active users, 7 and 30-day return**
- **Posts and messages per active user**
- **Classes and courses created and joined**
- **Applications sent through Career**
- **Creator earnings and paying creators**
- **Payment success rate**
- **Crash-free sessions, store rating**

7 Out of Scope for Now

- Referrals and mini-games (removed)
- Call recording
- Public API for partners
- Countries other than Ghana
- Fully native apps (first app versions wrap the web app)

8 Future Features

Match with CV
Already built but hidden; to be implemented and switched on

Personalised feed
Recommendations tuned to each student

Campus spaces
Official pages for universities and unions

Study tools
Groups, timetables, exam countdowns, past questions

Live classes
Whiteboards, recordings and certificates

Creator tools
Analytics, coupons, bundles, subscriptions

Employers
Verified companies, CV builder, interview practice

9 Open Decisions

- Final name and domain
- Payment model inside the store apps
- Minimum age
- First campus and launch date
- Pro pricing review after the first paying users (AI class stays free with caps)
- Who handles moderation and support at launch
